

BHARATH KUMAR K G

Senior Full Stack Developer | PHP · Laravel · CodeIgniter | MLM, Real Estate SaaS & E-Commerce Platforms

Kaiwara, Chinthamani, Chickaballapura, India | bharathkumar8147@gmail.com | 8147420709 / 6360673983

PROFESSIONAL SUMMARY

Senior Full Stack PHP Developer with 5 years of progressive experience at a single organization, growing from Intern to Senior Developer and Code Reviewer/Gatekeeper across three engineering teams. Deep specialization in MLM/network-marketing commission engines, real estate revenue-share SaaS platforms, and e-commerce systems, with 20+ live production deployments and 10+ payment gateway integrations. Recognized with the Star Performer and Wall of Fame awards for technical execution and leadership.

CORE COMPETENCIES

- Full Stack Web Development — PHP, Laravel, CodeIgniter
- MLM / Network-Marketing Architecture — Unilevel, Binary & Matrix commission engines, wallet systems, rank/capping logic
- Revenue-Share & Subscription Billing Systems for Real Estate Brokerages
- RESTful API Integration & Third-Party Service Consumption (PHP-side)
- Payment Gateway & Subscription Integration (10+ gateways, including crypto rails)
- Database Design, Management & Performance Optimization (MySQL, PDO)
- Code Review & Quality Assurance — Code Gatekeeper across 3 teams
- Server & Hosting Administration (cPanel, WHM, DigitalOcean)

TECHNICAL SKILLS

PHP Stack: PHP, Laravel, CodeIgniter, MySQL, PDO, AJAX, JSON, Session Management, cPanel, WHM, DigitalOcean

APIs & Integration: RESTful API integration/consumption (PHP-side), Webhooks, Third-party SaaS integrations

Payment & Subscription Platforms: Stripe, Square, Authorize.net (all w/ subscriptions & webhooks), PayFast, Paystack, Razorpay, Netcash, VlinkPay, MoonPay, Pargo, TCG, Skynet, crypto payment processors

Frontend: JavaScript, jQuery, AJAX, Bootstrap, HTML5, CSS3, SweetAlert2

Tools & Platforms: Git, WooCommerce/WordPress, GitLab Duo (AI code review), Postman, XAMPP

PROFESSIONAL EXPERIENCE

Mayura Consultancy Services — Bangalore, India

5 Years — Intern → Full Stack Developer → Senior Full Stack Developer → Code Reviewer/Gatekeeper (3 teams)

- Serve as code reviewer and gatekeeper across 3 development teams, approving all code before production deployment and enforcing coding standards and architectural consistency.
- Independently architected and built RightAlly, a multi-tenant revenue-share SaaS platform for US real estate brokerages, then transitioned ownership to a support team after stabilization.
- Led a 10-member team in the development of e-commerce solutions and acted as primary code reviewer for the group's releases.
- Designed, built, and deployed 20+ live MLM and real estate platforms for international clients across the US, South Africa, and other regions.
- Integrated 10+ payment gateways and shipping/delivery APIs across client projects, including Stripe, Square, Authorize.net, PayFast, Paystack, Razorpay, Netcash, BlinkPay, MoonPay, Pargo, TCG, and Skynet.
- Diagnosed and resolved cascading application-layer bugs in core CodeIgniter e-commerce filtering logic, and managed/stabilized shared cPanel/WHM hosting infrastructure (CentOS).
- Completed a short-term onsite assignment in South Africa (Jan 2024) for a high-priority client project.

KEY PROJECTS

RightAlly — AI-First Revenue-Share Brokerage SaaS Platform (US) — rightally.io

PHP · CodeIgniter · MySQL · jQuery/AJAX · REST API · Square · Brokermint

- Solely owned and built the core backend, enabling real estate brokerages to launch and run multi-tier revenue-share and commission networks.
- Built the agent onboarding flow with conditional registration logic, digital agreement signing, and automated activation on payment confirmation.
- Engineered the revenue-share/commission engine with configurable splits, individual/level caps, recruiter incentives, and qualification rules.
- Integrated Square for recurring subscription billing and Brokermint for two-way data sync and transaction-driven commission triggers.
- Built the admin control panel covering agent/recruiter management, KPI dashboards (GCI/NCI, payouts), and capping resets.
- Deployed the platform for 5 brokerage clients on a shared core engine, including Home Rock Realty, Home Rock Mortgage, Realty One Group (Florida), Join The Pak, and Join TRF.

Lyftyng — MLM Commission & Wallet Platform — lyftyng.com

[PHP](#) · [CodeIgniter](#) · [MySQL](#) · [AJAX](#) · [Stripe](#) · [BlinkPay](#) · [USDT/Crypto](#)

- Built core modules for a Unilevel + Matrix MLM platform, including sponsor-based tree placement and a multi-level commission engine.
- Developed the Lifting Dollar (LD) internal wallet system, with coupon-based and amount-based transfer logic and safeguards against negative balances.
- Integrated Stripe for subscription billing (auto-pay, card updates, webhook-driven renewal) and VlinkPay as a gift-card-based payment method.
- Built the USDT crypto withdrawal flow with wallet-address validation, admin approval workflow, and behavior/impact point tracking via cron jobs.

Fstea (Flat Stomach Tea) / Focus Logic — Unilevel MLM E-Commerce Platform — flatstomachtea.co.za

[PHP](#) · [CodeIgniter](#) · [MySQL](#) · [PayFast](#) · [Pargo](#) · [Brevo](#)

- Built a Unilevel MLM platform integrated with an e-commerce storefront for a health & wellness brand operating across South Africa and other African markets.
- Implemented affiliate join, rank upgrade, commission, and recruitment logic, with PayFast for payments and Pargo for delivery/logistics.
- Integrated Brevo for automated member and order communications, and supported the platform through distributor network growth.

Coinvest / Healtheeu / Behealed — MLM & Wellness Platform Group — coinvest.africa

[PHP](#) · [CodeIgniter](#) · [MySQL](#) · [AJAX](#) · [Admin Tooling](#)

- Contributed to a related group of MLM/membership platforms sharing core architecture, supporting member management, affiliate structures, and backend administration across production and test environments.

XP Network / 15X Extreme / Scent Link / Vita Delta / Smart Vita / Zoelive / Yonicare — Wellness & Retail MLM Platforms

[PHP](#) · [CodeIgniter](#) · [MySQL](#) · [AJAX](#) · [Affiliate & Commission Logic](#)

- Built and supported a family of MLM, wellness, and retail platforms sharing a core affiliate/commission architecture, each configured with brand-specific storefronts and payment integrations.
- Maintained test and production environments in parallel for several brands during active client rollouts.

Join The Pak / Home Rock Realty / Home Rock Mortgage/ Realty One/ X Homes / What's On Properties — Real Estate Listing Platforms

[PHP](#) · [CodeIgniter](#) · [MySQL](#) · [Property Listings](#) · [Admin Dashboard](#)

- Built real estate listing platforms with property search/filtering, agent management, and admin-side content tools, extending the realty pattern used across the RightAlly-family deployments.

GP Agency / Gemnation / GMart / Stopnonsense / Teapreneur — Membership, Marketplace & Franchise Platforms

[PHP](#) · [CodeIgniter](#) · [MySQL](#) · [E-Commerce](#) · [Admin Tooling](#)

- Developed and maintained membership, marketplace, and regional MLM/franchise platforms covering registration, catalog management, and admin reporting, with ongoing enhancement and support after initial build handoff.

WooCommerce Storefront Customization — checkout.revyonpeptides.com

[WordPress](#) · [WooCommerce](#) · [PHP](#) · [CSS](#) · [JavaScript](#)

- Customized a WooCommerce storefront on the Twenty Twenty-Five block theme, including checkout-only access control and guest-checkout notice removal via functions.php and CSS.

Server Infrastructure Management — server.gtech.bz

[cPanel](#) · [WHM](#) · [CentOS 8](#) · [ImunifyAV](#)

- Managed a shared cPanel/WHM hosting server on CentOS 8, diagnosing recurring performance degradation and resolving ImunifyAV resource contention and compromised account issues.

Note: In addition to the projects above, contributed to 15+ additional client platforms across MLM, real estate, wellness, and e-commerce domains, spanning initial build, enhancement, and ongoing support phases.

EDUCATION

M.Tech, Computer Science & Engineering — 9.14 CGPA | Dr. Ambedkar Institute of Technology, Bangalore | 2018 – 2020

B.E., Computer Science & Engineering — 60% | Dayananda Sagar College of Engineering, Bangalore | 2014 – 2018

AWARDS & ACHIEVEMENTS

- Star Performer Award — Recognized for outstanding contributions and project execution.
- Wall of Fame Award — Honored for exceptional leadership and innovation.
- Onsite Opportunity in South Africa — Selected for a short-term, high-priority client assignment (Jan 2024).

CERTIFICATIONS

- PHP with Laravel for Beginners — Master Laravel (Udemy)
